

Global Trends in Growth of Young Companies & Angel Investing

Angel Association New Zealand and NZX invite you to join us for a networking event.

Our special guest is **Bill Payne**, who is an engineer, entrepreneur, angel investor, and educator. Bill sold Solid State Dielectrics to DuPont in 1982 and has since played a considerable role developing entrepreneurship and angel investing in the United States.

Bill Payne's list leadership and director role includes:

- Serving on five university advisory boards
- Teaching over 80 workshops and seminars on angel investing in five countries.
- Providing over 120 man-years of service on profit and non-profit boards of directors
- Acting as the president of the United States Advanced Ceramics Association, National Institute of Ceramic Engineers, and the American Ceramic Society.
- Serving as an Entrepreneur-in-Residence to the Kauffman Foundation for 12 years
- Serving on the founding committee of the Angel Capital Association (US)

Bill has vast entrepreneurial and investment experience and a track record of being able to share his experiences with others. On his last visit to New Zealand, Bill led the Power of Angel's seminars, a Kauffman Foundation seminar series that he created. More information about Bill is available on his website:

www.billpayne.com.
